

# LSCM 2020

A special syllabus at ISEL on  
Logistics & Supply-Chain  
Management

Université Le Havre - Normandie

# Presentation & Application

ISEL (Institut Supérieur d'Etudes logistiques) offers a **special syllabus in English**, taught by experienced teachers and designed for foreign students (3 years of further studies) wishing to spend a **spring semester** (from March to June) in our Graduate School of Logistics in Le Havre, Normandy.

All topics are taught in English.

-----

**30 CREDITS**

For students hoping to achieve 30 ECTS (or more) in order to validate his/her semester

**IMPORTANT** : in order to work in good conditions, the number of students is limited up to 15 students. The syllabus opens if a minimum of 5 students apply to it.

**DO NOT WAIT TOO MUCH !!**

2020 session will start on March 2nd (integration week) and end on June 29th

*(For more practical info, see last page)*

# Settling in

**The "tutor" system** : because coming to a foreign country can be both exciting and a little bit difficult !

In order to get some practical help and get to know student life, each international student will receive help from a "tuteur". This fellow student from ISEL will be his/her guide especially during the very first weeks of the stay (opening a bank account, for example) but also before.

Once officially enrolled (*see application deadline*) in the international program "LSC @ ISEL 2019" international students will be in touch with their "tuteurs" so they can start knowing each other.

**The ISEL survival kit (optional, but strongly advised)** :

*In addition to the "tuteur" system, at our student union our goal is to make sure you'll feel good among us 😊*

*Student life is important ! Therefore, the BDE has decided that it's membership is free to all the international students of the program, including a cheaper price for all the activities we organize (parties, laser game ...) and the access to our cafeteria.*

*We offer to the foreign students a helpful hand with a pack that contains kitchen tools, cooking tools etc ... It is a rental kit that costs around 15 euros for the whole length of your stay, plus a deposit. Easy : you get this kit at your arrival, and return it at your departure.*

*Never hesitate to come and see us in the "K'Fet", we are here to help !  
See you soon !*

*- The ISEL Bureau of Students (BDE)*

# LSCM @ ISEL 2020 Syllabus

## *An international team of lecturers*
